Is the best to send for Xmas Presents. We will have over 400 boxes nicely put up in 1, 2, 3, 4, 5 and 6 pound.

ALSO BOX CHOCOLATES

See us for your candies.

SUNDY'S Candy Kitchen

Strange that nobody has thought of blaming the new comet for all this war.

A husband likes to give his wife advice, although he knows it won't do any good.

Any person craving excitement can get all he requires by becoming a war photographer.

"Never despise little things," writes a Chicago news philosopher. How about red ants?

"Even poetry can be forgiven this glorious weather," says a paragrapher. Not war poetry.

Fur-bearing animals are also enthusiastically in favor of the "wear cotton" movement.

When it comes time to revise the maps we can well do without such names as Przemysl.

Why should a man try to hide his light under a bushel, when a peck would answer the purpose.

It is noticed that thus far none of the Zeppelins has struck a sunken bomb in those London fogs.

What alarmists used to call the "annual slaughter on the gridiron" will seem a tame performance this year.

When a woman with a past marries a man with a past there really isn't much material left for a problem play.

A fashion note says skirts will be fuller next season. Some of them are so full now that they are almost bursting.

European war correspondents must be using different maps from those in use in this country—their stories don't fit.

One of the secret, gnawing fears that prey upon men is that the women will take to resembling the new fashion pictures.

A big gun that is hopelessly stuck in the mud is about as useless as a big gun several thousand miles removed from the scene of war.

According to the department of agriculture, the three-cornered alfalfa hopper is a menace. Can't some way be found to flank him?

Great Britain is said to be buying 165,000 Missouri saddle trees. But then, such trees are comparatively worthless for shade purposes.

A leading divine announces a lecture on the "inner esoterics" of Christianity; those acquainted only with the outer exoterics should attend.

A woman moralist is quoted as saying: "When in love, be calm." Might as well tell the fire department to go slow when responding to an alarm.

The department of agriculture had the interest of the consumer in view when it issued its circular urging farmers and dealers not to hold eggs too long.

It is claimed that the Russians have taken a part of Przemysl. Let us hope they did not take the middle of it, if it is to continue to figure in the war news.

The French and the German war offices both announce officially that the situation is satisfactory. In which case nobody else has a right to complain.

A Paris correspondent says that America gets better news of the war than Europeans. But this is in accordance with the old axiom that on-lookers see most of the game.

You've got to give it to the war correspondents. They don't tell anything about the war, but they're there with both feet when it comes to describing the kind of food they have to eat.

The department of agriculture assures the nation that this country can supply all the cheese it wants, even unto the limburger brand. Such things as these are gleams of sunshine in the stormy sky.

Chancellor Snow of the University of Kansas says his new bug, the amblychylacindriformis, lives in holes in the ground; mebbe so, but ambli evidently leaves his name on the outside, where there's more room.

Hartford has seen a sight which goes far toward convincing us that old manners are dying out. A gypsy tribe traveled from Denver to Worcester, Mass., in two big limousines which carried tents, pots and other things inseparable from gypsy camps. When the gypsies go back on the horse it certainly seems as if the equine day is passing.

Laughter Aids Digestion

Laughter is one of the most great help to digestion. A still more effectual help is a dose of Chamberlain's Tablets. If you should be troubled with digestion give them a trial. They only cost a quarter. Obtainable everywhere. (adv.)

GARDNER DEMANDS FINANCIAL JUSTICE FOR THE FARMER

SUBMITS BILL TO LEGISLATURE PROVIDING FOR STATE LAND BANK.

Measure Would Enable Missouri Agriculturists to Borrow Money on Long Time at Low Interest Rates.

Jefferson City, Mo.—It is conceded on all sides that Col. F. D. Gardner, in his address before the agricultural committees of the house and senate a few days ago, which meeting was attended by the governor and prominent members of the house and senate, and in his advocacy of the bill which he submitted for the establishment of the Missouri State Land Bank, created an immensely favorable impression.

The bill was unanimously recommended for passage by both committees. It is now before the senate and house. Undoubtedly the members of the legislature will receive letters from home urging its passage.

In his argument Col. Gardner pointed out the fact that the farmer produced all of the wealth of the nation. And yet, according to the official figures of President Taft, he is paying

more interest for the use of the wealth which he creates than any other class of people.

The bill submitted is simple in the extreme. It provides that the state shall form a corporation known as the Missouri State Land Bank, that the state shall loan this bank \$1,000,000 to start with; that after the bank has loaned \$500,000 it may issue bonds against the \$500,000 of farm mortgages and sell the bonds in all of the great centers of the world at the lowest possible rate of interest.

These bonds may be issued up to \$400,000,000 the first issue, and subsequent issues at the ratio of 30 to 1 for an indefinite amount, which Col. Gardner figured would sell at about 4 per cent.

In making loans and deeds of trust provision shall be made for the payment of all or part of the loan at any interest period, and for the amortization of the debt by the payment annually or semi-annually of the interest at the rate fixed and small installments of the principal debt at like periods, and for the payment of 1/2 to 1 per cent to create a reserve fund, all so adjusted as to discharge the debt in the number of years desired by the debtor within the limit heretofore mentioned, as, for example: If the loan should amount to \$100 and be made at the interest rate of 4.3 per cent, it would be amortized approximately as follows:

Duration.	Annual Payments.
5 years	\$22.40
10 years	13.40
15 years	9.10
20 years	7.50
25 years	6.50

If, therefore, the bank should sell the bonds for 4.3 per cent and collect 1/2 of 1 per cent for the reserve fund, the loan would mature according to the desire of the borrower on the above approximate basis of annual payments. It will be seen that if the loan were made for a period of 25 years the borrower would pay a total of approximately 6 1/2 per cent thereon, made up as follows: Interest, 4.3 per cent; reserve, 1/2 of 1 per cent; on the principal, 1.7 per cent.

Out of the sinking fund the \$1,000,000 would be repaid to the state. The advancement of the million dollars by the state would enable the people to borrow their money at low rates of interest.

Col. Frederick D. Gardner, originator of the Missouri State Land Bank plan and author of the bill submitted to the legislature providing for the establishment of same, was born in Hickman, Ky. He lived on a farm until the age of about 17. Started in the manufacturing business in St. Louis as an office boy, and has worked in all of the different departments at the bench.

Mr. C. O. Raine of Canton, Mo., master of the State Grange, in an interview with the St. Louis Republic, said that Col. Gardner's bill, if adopted, would revolutionize agriculture in the state of Missouri.

Col. Gardner ridiculed the report, published in these same papers, that certain Democratic Representatives were preparing to force him into the Presidential race. He specifically denied the "rumor" that Senator Underwood had pledged him his support against President Wilson.

Democrats believed the stories, which appeared only in papers antagonistic to the administration, were either inspired in the hope of creating strife in the Democratic ranks or were products of the imagination of writers seeking to fill space during the dull news season.

CHAMP CLARK "SPIKES" RUMORS

Speaker Ridicules Press Stories He is Presidential Aspirant for 1916

Washington, D. C., Dec. 21.—Eastern newspapers again are making it necessary for Speaker Clark to "spike" speculative stories respecting the possibility of the Missourian becoming a candidate for President next year against Mr. Wilson.

New York and Baltimore papers this morning published reports to this effect. When his attention was called to the yarns, the Speaker said he had not changed the attitude defined in his now famous Panama Canal tolls speech.

He then said that if President Wilson made good, no man could defeat him for renomination, and that if he didn't make good, the nomination would not be worth having. The Speaker knows the President has made good.

Mr. Clark ridiculed the report, published in these same papers, that certain Democratic Representatives were preparing to force him into the Presidential race. He specifically denied the "rumor" that Senator Underwood had pledged him his support against President Wilson.

Democrats believed the stories, which appeared only in papers antagonistic to the administration, were either inspired in the hope of creating strife in the Democratic ranks or were products of the imagination of writers seeking to fill space during the dull news season.
